OxyGo® is made to follow you anywhere!

OxyGo® portable oxygen concentrator (POC) is a lightweight medical device that can make the medical oxygen your doctor prescribed from the air around you. With OxyGo, you never need to worry about running out of oxygen and you don't need to carry heavy tanks!

OxyGo is different from other POCs because it shows you exactly how much time you have left on the battery, and you can change the battery easily. You can also charge OxyGo and use at the same time—either in the car or at home! OxyGo is also clinically validated to be used 24/7, so it can supply the medical oxygen you need at home or on the go!

OxyGo shows you how much time is left before you need to recharge or switch batteries

OxyGo® comes with ...

- Standard 4.75 hour battery*
- Car charger
- Nasal cannula
- Stylish carry bag with padded, adjustable shoulder strap
- Wall charger
- 5 year warranty**
- Equivalent to 5 lpm (5 pulse dose settings)
- Easy to read digital screen
- Can be used with cannula up to 25 feet
- Quiet Operation — at just 39 decibels OxyGo is so quiet you can take it to church!

* At setting 1.

** Excludes certain parts that require easy routine maintenance.

“The tanks I used before OxyGo were bulky and very restrictive. OxyGo gave me my life back. Now I want to go places. I can take OxyGo to the pool, beach, grocery store, and shopping. I am often gone 8-10 hours a day!”

~ Cathy W.

OxyGo® is ready to go when you are!

OxyGo® keeps you active. Whether you are out on the town or home with family — you can always have your oxygen with you. Learn more at: www.oxygo.life

“OxyGo has given my mom her life back—and mine too! Before OxyGo she could not go to two hours away to see my sister. Now she can see her grandkids. It's a product that has definitely made her life a lot happier.”

~ Angela W.
